

Nuclear Policy Statement

1.0 POLICY STATEMENT:

Suffolk Safety Solutions Ltd recognises that working within a nuclear sector requires specific consideration to ensure the occupational health & safety of its personnel and those affected by its undertakings.

Nuclear safety is a key element of our operations, and we ensure that we always maintain the highest standards and will achieve this via, but not exclusively, training, processes, procedures, monitoring, consultation and participation; all of which are continually measured and monitored inline with our performance expectations.

2.0 COMMITMENTS:

Suffolk Safety Solutions Ltd will:

- Put nuclear safety first and foremost in our decision making
- Maintain effective leadership and management of nuclear safety
- Assign roles and responsibilities to ensure accountability at all levels
- Ensure that all personnel are provided with appropriate training and deemed competent to undertake their roles and responsibilities
- Maintain a positive nuclear safety culture through participation and consultation, training and effective processes, systems and arrangements
- Review nuclear safety performance to ensure continual improvement via lessons learnt
- Maintain effective communication with all interested parties to ensure our expectations regarding nuclear safety are met
- Continually review its management systems to ensure compliance and that best practice is utilised at all times
- Maintain effective emergency preparedness and response arrangements

We understand that our commitment to a high standard of nuclear safety can only be achieved with the support of all interested parties, including our personnel and suppliers. We will continually work with our customers to ensure that we meet and exceed their expectations.
